

Jmgo N1S Ultimate

J M G O N 1 S U L T I M A T E

The standard portable N1S Ultimate 3D laser DLP projector from Jmgo has 3500 Ansi lumens, a contrast of 1600:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer Jmgo specifies a service life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. A picture width of up to 601 cm is possible, if the picture width is smaller (we recommend max. 401 cm), rooms with residual light are also no problem. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The model recognizes Chromecast, screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Video signals 1080P and 4K as well as 3D are also no problem for the projector, meaning that all currently available Blu-ray formats can be recognized by the projector. The operating noise of just 26 decibels makes the projection quiet.

1 x 0,47" DMD DLP Chip

HDTV 16/9 Ti Digital Light Processing Chip

Projector	4125 / 3300 ISO Lumens	Screen	1833 Lux (200 cm Screen width)
