

Jmgo V8

J M G O V 8

A brief introduction to the V8: The Jmgo 3D DLP projector offers 1100 Ansi lumens, a contrast of 3000-5000:1 and HDTV 1920 x 1080 resolution. Includes an integrated media player for direct file playback. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector will be able to illuminate a picture width of 337 cm well. However, if room light is available, the picture width should ideally not exceed 225 cm. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Even 1080P video signals are no problem for the projector. The projector was launched in 2017 and is no longer sold by the manufacturer.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 1100 Screen 489 Lux (bei 200 cm Screen)

Contrast
