

JVC DLA HD12K/L

JVC DLA HD12K/L

The DLA HD12K/L DILA has 600 Ansi lumens, a contrast of 2500:1 and an HDTV 1920 x 1080 resolution. With the lens shift function, the projector can be positioned very freely. An image width of up to 249 cm is possible. However, the image should be smaller in room light. We recommend max. 166 cm. At just 27 decibels, the device is one of the quieter projectors. This model is no longer offered by JVC. It should also be noted that there are unfortunately no longer any replacement lamps available for this projector, neither originals nor replicas.

3 x 0,82" D-ILA Chip

HDTV 16/9 Direct-Drive Image Light Amplification (D-ILA)
