JVC DLA HD250Pro

The JVC DLA HD250Pro DILA projector has 1000 Ansi lumens, a contrast of 25000:1 and an HDTV 1920 x 1080 resolution. The projector also offers a lens shift function that makes image adjustment childs play. Thanks to the brightness of 1000 Ansi lumens, a picture width of 321 cm is possible. In room light, the picture should be max. 214 cm wide. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by JVC.
