

JVC DLA HD750BE

JVC DLA HD750BE

Brief Introduction

Beta 2.5

The DLA HD750BE DILA projector from JVC has 900 Ansi lumens, a contrast of 50000:1 and HDTV 1920 x 1080 resolution. The integrated lens shift gives you freedom when positioning the projector. The projector can illuminate an image width of up to 305 cm thanks to its 900 Ansi lumens. In room lighting, however, the image width should ideally be less than 203 cm. Even 1080P video signals are no problem for the projector. At just 19 decibels, the device is one of the quieter projectors. The model built in 2008 is no longer offered by JVC, but is still very popular in our projector database.
