

JVC DLA RS420

JVC DLA RS420

The DLA RS420 3D DILA has 1800 Ansi lumens, a contrast of 40000:1 and a UHD (4K2K) 3840 x 2160 resolution. Including a lens shift function, which provides freedom during installation. A picture width of up to 431 cm is possible. However, the image should be smaller in room light. We recommend max. 287 cm. Video signals 1080P and 4K as well as 3D are also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 20 decibels makes the projection quiet.

3 x 0,7" DILA Chip
