

JVC DLA V2300G

JVC DLA V2300G

The JVC DLA V2300G 3D laser DILA projector has 1200 Ansi lumens, a contrast of 30000:1 and an HDTV 1920 x 1080 resolution. Due to the laser, the projector is specified with 30000 hours of light life, which is over 20.5 years if enjoyed for four hours a day. The built-in lens shift function provides freedom when adjusting the projection. 1200 Ansi lumens ensure that an image width of 352 cm is also possible. However, if room light is available, the picture should be a maximum of 235 cm wide. Furthermore, the projector can play 1080P and 3D without any problems. The model was built by JVC in 2015 and is no longer current.
