

JVC DLA-VS4550

JVC DLA-VS4550

The DLA-VS4550 3D Laser DILA has 3000 Ansi-Lumen, a contrast of 12000:1 and a UHD (4K+2K) 4096 x 2160 resolution. The service life is 20000 hours due to the laser, which would be the equivalent of over 13.7 years at 4 hours per day. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of up to 556 cm with its 3000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 371 cm. Playback of 1080P and 4K as well as 3D is also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector.
