

JVC DLA X550R

JVC DLA X550R

The JVC DLA X550R 3D DILA projector has 1700 Ansi lumens, a contrast of 60000:1 and a UHD (4K2K) 3840 x 2160 resolution. Including a lens shift function, which provides freedom during installation. A picture width of up to 419 cm is possible. However, the image should be smaller in room light. We recommend max. 279 cm. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector. At 20 decibels, the projector is very quiet compared to other projectors. This model is no longer offered by JVC.

3 x 0,7" DILA Chip
