

JVC DLA X90R

JVC DLA X90R

The high-end home cinema DLA X90R 3D DILA projector from JVC has 1300 Ansi lumens, a contrast of 120000:1 and a UHD (4K2K) 3840 x 2160 resolution. Including a lens shift function, which provides freedom during installation. The projector can illuminate an image width of up to 366 cm thanks to the 1300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 244 cm. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector. The operating noise of just 20 decibels makes the projection quiet. It was launched in 2011 and is no longer offered by the manufacturer JVC.
