The micro-portable GC357 LED LCD has 1000 Ansi-Lumen, a contrast of 20000:1 and an HDTV 1920 x 1080 resolution. Manufacturer KOGATA states a lifespan of 30,000 hours, which would be the equivalent of over 20.5 years at 4 hours a day. 1000 Ansi-Lumen ensure that an image width of 321 cm is also possible. However, if room lighting is present, the image should not exceed 214 cm in width. The projector supports Airplay, Miracast Screen Mirroring, which allows for direct playback of high-resolution videos and surround sound from smartphones, tablets and PCs running Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.
