

Leica Cine Compact 1

The Leica Cine Compact 1 3D Laser DLP projector has 1,700 ANSI lumens, a contrast ratio of 1,500:1 and a UHD (4K2K) resolution of 3,840 x 2,160. Thanks to its laser technology, the projector has a specified lamp life of 25,000 hours, which equates to over 17.1 years at 4 hours? use per day. The projector is equipped with a built-in media player, so playing files directly will be no problem. The projector can effectively illuminate an image width of 556 cm. However, if there is ambient light in the room, the image width should ideally not exceed 371 cm. As the projector recognises AirPlay and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The model is also compatible with Full HD 1080p, 4K and 3D, meaning the projector can recognise all currently available Blu-ray formats. At just 29 decibels, the device is one of the quieter projectors.
