LG RD JA30

## Brief Introduction

Beta 2.5

A brief introduction to the RD JA30: The LG DLP projector offers 1200 Ansi lumens, a contrast of 1500:1 and HDTV 1280 x 720 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. An image width of up to 352 cm is possible as the projector has 1200 Ansi lumens. However, if room light is available, the picture should be a maximum of 235 cm wide. At just 28 decibels, the device is one of the quieter projectors. It is no longer offered by the manufacturer LG.
