Data

The Lightware VP800 standard portable LCD projector has 270 Ansi lumens, a contrast of 150:1 and an SVGA 800 x 600 resolution. The projector can illuminate a picture width of 143 cm well. However, if room light is available, the picture width should ideally not exceed 95 cm. On the market since 1996, the model is no longer offered by the manufacturer Lightware. It should also be noted that, unfortunately, there are no longer any replacement lamps available for the projector, neither originals nor replicas.
