

Lisowod An1

Manufacturer Lisowod offers with the An1 an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 18000:1. It is an LED projector with 150000 hours of light life, which is equivalent to over 102.7 years at 4 hours per day. 223 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 149 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. It is also Full HD 1080P and 4K (compressed) compatible.
