

Lisowod LP02

LISOWOD LP02

Brief Introduction

Beta 2.5

Manufacturer Lisowod offers the LP02, a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The LEDs give the projector a light lifespan of up to 50000 hours, which is the equivalent of over 34.2 years at 4 hours a day. The projector can illuminate up to 227 cm of image width well thanks to the 500 ANSI lumens. However, in room light, the image width should ideally be under 151 cm. With the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. Furthermore, the projector can play 1080P and 4K (compressed) without any problems, and even has the option of projecting HD 1080P and 4K (compressed) Blu-rays onto the ceiling thanks to the 360° projection.
