

Lumistar Pro

LUMISTAR PRO

Brief Introduction

Beta 2.5

The Lumistar Model Pro is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 2300:1. The manufacturer specifies an LED lifespan of 30,000 hours, which equates to over 20.5 years if used for four hours a day. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. 300 ANSI lumens ensure that an image width of 138 cm is possible. However, if there is ambient light in the room, the image should be no more than 92 cm wide. The projector features AirPlay, Miracast screen mirroring support, which enables high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The projector also has no problem playing 1080p and 4K (compressed) content.

Display Type

- 1 x LCD Panel
- HDTV 16/9 Liquid Crystal Display
