

Luximagen GTV1000

LUXIMAGEN GTV1000

The Standard Portable GTV1000 LED LCD has 450 Ansi lumens, a contrast ratio of 3000:1, and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. An image width of up to 216 cm is possible because the projector has 450 ANSI lumens. However, if there is room lighting, the image should be no more than 144 cm wide. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
