

Luximagen UHD380

LUXIMAGEN
UHD380

The standard portable UHD380 LED LCD has 510 Ansi-Lumen, a contrast of 15000:1 and a HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years with a daily viewing time of 4 hours. The horizontal and vertical keystone correction provides leeway when setting up. As Luximagen specifies the brightness of the projector in lumens, we have calculated an approximate ansi lumen value in this case. An image width of up to 229 cm is possible. In room light, however, the image should be smaller. We recommend max. 153 cm. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector.
