

Magcubic HY300 Pro Mini

MAGCUBIC HY300 PRO MINI

The Magcubic model HY300 Pro Mini is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 1500:1. The service life is 30000 hours due to the LEDs, which is over 20.5 years with a daily viewing time of 4 hours. Including an integrated media player with which files can be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector will be able to illuminate a picture width of 203 cm well. However, if there is room light, the picture width should ideally not exceed 135 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector. At 25 decibels, the projector is very quiet compared to other projectors.
