

Magcubic HY300 Pro+

MAGCUBIC HY300 PRO+

The Magcubic HY300 Pro+ is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 8000:1. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years when used for four hours a day. The integrated media player can play files directly. Horizontal and vertical keystone correction ensures easy image setup. 200 ANSI lumens ensure that an image width of 144 cm is possible. However, if there is ambient light in the room, the image should be no wider than 96 cm. As the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos from a smartphone, tablet, or PC (Android, Windows, and iOS) with high resolution and surround sound directly via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The model is also compatible with Full HD 1080P and 4K (compressed). The operating noise of only 25 decibels makes the projection quiet.
