

Magcubic HY310

MAGCUBIC HY310

The Magcubic model HY310 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The LEDs give the projector a light lifespan of up to 30000 hours, which is over 20.5 years of enjoyment at four hours a day. With a projection ratio of only 0.8:1, this projector is never in the way. For a 2m wide image, the projector only needs to be 160 cm away from the screen. With integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Playing 1080P and 4K (compressed) is also no problem for the projector.
