

Magcubic HY310X

MAGCUBIC HY310X

The Magcubic HY310X LED LCD projector has 420 ANSI lumens and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, it has a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. An image width of up to 208 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 139 cm. The model recognizes DLNA, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also compatible with Full HD 1080P and 4K (compressed).
