

Magcubic Mini Projektor

MAGCUBIC MINI PROJEKTOR

A brief introduction to the mini projector: The Magcubic LED LCD projector offers 200 Ansi lumens, a contrast of 10000:1 and HDTV 1920 x 1080 resolution. The manufacturer Magcubic specifies a service life of 50,000 hours, which is over 34.2 years with a daily viewing time of 4 hours. Due to the brightness of 200 Ansi lumens, a picture width of 144 cm is possible. In room light, the picture should be max. 96 cm wide. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector.

Brief Introduction Beta 2.5
