

Magcubic S1

MAGCUBIC S1

A brief introduction to the Magcubic S1. The game-portable LCD LED projector has an HDTV resolution of 1280 x 720 and a contrast of 8000:1. The manufacturer Magcubic specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. 164 cm picture width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 109 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. It is also Full HD 1080P and 4K (compressed) compatible. The operating noise of just 25 decibels makes the projection quiet.

Brief Introduction

Beta 2.5

Display Type

1 x LCD TFT Panel
