Connect, configure and C

Connecting and configuring the VP7200 proves to be extremely easy. With the pleasingly flexible digital keystone correction you can level out the sides of the image and with two tuning rings around the lens precise adjusting the size/throw distance is a matter of seconds. The setup menu is user friendly, graphically well designed and understandable for everybody. The execution of the VP7200 LCD projector is one of pure excellence. A rugged build quality, classy finish with round edges and the dual tone colors in light purple present a stylish and coherent design. The tastefully lighted buttons are intuitively placed and easy to operate in the dark. The VP7200 is specially designed to fit any ultimate Home entertainment environment.

Premium LCD Image Quality

The VP7200 deploys specially selected, best in class LCD panels. Furthermore it features a powerful 150W UHP lamp, capable of delivering a vibrant, natural, filmic image. Color tracking provides the unique ability of tuning the colors across the whole brightness range (personal preference from natural to vivid). Extensive usage of premium optical and electrical components provide exceptional clarity and improved resolution. In operation you'll enjoy a smooth and impressive picture, free of visible image structure, even at prodigious sizes over 100in. No dot crawl, grain, horizontal or vertical LCD panel lines are visible.

Enhance your Flexibility

The VP7200 plays virtually every existing video format, as well as supporting (and down converting) 480p, 720p and 1080i progressive/HDTV input signals, anamorphic 16:9 video sources and true SVGA PC resolution. The VP7200 is unobtrusively ceiling mountable and comes with a ergonomic remote control for total control over setup and navigation.

Enjoy Durable Quality

The lamp life of the VP7200 amounts to 2000 hours, without noticeable dimming at the end. Along with the renowned Marantz warrantee this versatile projector is more than a sound investment in your ultimate Home Entertainment setup. Considering performance, size and weight the VP7200 can also function as the optimal solution, transportable presentation device.
