MAXELL MC-EW4501

A brief introduction to the MC-EW4501: The Maxell LCD projector offers 4000 Ansi-Lumen, a contrast of 20000:1 and a WXGA 1280 x 800 resolution. The lamp life is specified by the manufacturer as 12500 hours, which is over 17.1 years with a daily viewing time of 2 hours. The horizontal and vertical keystone correction provides leeway when setting up. 4000 Ansi lumens ensure that a picture width of 643 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Even 1080P video signals are no problem for the projector. It was launched in 2018 and is no longer offered by the manufacturer Maxell.
