

Maxora HY300

MAXORA HY300

With the HY300, manufacturer Maxora offers an LCD LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 1500:1. The LEDs have a service life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The projector is equipped with an integrated media player, so playing files directly is no problem. The horizontal and vertical keystone correction allows the projector to be set up very freely. 200 ANSI lumens ensure that an image width of 144 cm is possible. However, if there is ambient light in the room, the image should be no more than 96 cm wide. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound from smartphones, tablets, and PCs running Android, Windows, or iOS to be played directly via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. The operating noise of only 25 decibels makes the projection quiet.
