

Maypug HY300

MAYPUG HY300

The portable Maypug HY300 LED LCD projector has 200 ANSI lumens, a contrast ratio of 1500:1 and an HDTV 1280 x 720 resolution. The LEDs give the projector a light lifespan of up to 30,000 hours, which would be over 20.5 years at 4 hours of viewing per day. The projector also offers an integrated media player that can be used to play files directly. The horizontal and vertical keystone correction provides flexibility when setting up. The projector will be able to illuminate a width of 144 cm well. However, if room light is available, the width of the image should not exceed 96 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The model is also compatible with Full HD 1080P and 4K (compressed). At just 25 decibels, the device is one of the quieter projectors.
