A brief introduction to the MediaLy LED A100. The LCD projector has an SVGA 800 x 600 resolution and a contrast of 800:1. As MediaLy specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. A picture width of up to 91 cm is possible. In room light, however, the image should be smaller. We recommend max. 61 cm. This model is no longer offered by MediaLy.
