Megapower ML73

Brief Introduction
Beta 2.5

The Megapower ML73 LED DLP projector has 800 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies an LED service life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours of use. The integrated media player allows files to be played directly. An image width of up to 287 cm is possible as the projector has 800 Ansi lumens. However, if there is room light, the picture should be max. 191 cm wide. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. On the market since 2016, the model is no longer offered by the manufacturer Megapower.
