

Mitsubishi HC5500

MITSUBISHI HC5500

The HC5500 LCD has 1200 Ansi lumens, a contrast of 14000:1 and an HDTV 1920 x 1080 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of up to 352 cm well thanks to the 1200 Ansi lumens. In room lighting, however, the picture width should ideally be less than 235 cm. The projector can also play 1080P without any problems. With an operating noise of just 22 decibels, the model is very quiet compared to others. This model is no longer offered by Mitsubishi, but is still one of the very popular projectors.
