Brief Introduction
Beta 2.5

A brief introduction to the Mitsubishi XL2E/U. The LCD projector has an XGA 1024 x 768 resolution and a contrast of 350:1. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The projector can illuminate a picture width of up to 302 cm thanks to its 1200 Ansi lumens. In ambient light, however, the picture width should ideally be less than 201 cm. The model was built by Mitsubishi in 2002 and is no longer current.
