

Nec M403W

NEC M403W

The standard portable Nec M403W 3D DLP projector has 4000 Ansi lumens, a contrast of 10000:1 and a WXGA 1280 x 800 resolution. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction provides room for maneuver when setting up. As the M403W is equipped with a microphone jack plug and 20W loudspeaker, no additional audio system is required for presentations or training courses. 643 cm picture width, the projector will be able to illuminate well. The projector can manage rooms with residual light with a smaller image width, we would recommend a maximum of 429 cm here. Video signals 1080P and 3D are also no problem for the projector. The projector was launched in 2015 and is no longer sold by the manufacturer.

Brief Introduction

Display Type

1 x 0,65" DLP Chip
WXGA 16/10 Ti Digital Light Processing Chip

Ansi-Lumen
