

Nec P452W

Brief Introduction
Beta 2.5

The Nec model P452W is a DLP projector with WXGA 1280 x 800 resolution and a contrast of 6000:1. The lamp life is up to 5000 hours, which converts to over 6.8 years at 2 hours per day. The built-in lens shift and keystone correction function provides freedom when setting up. An image width of up to 682 cm is possible, if the image width is smaller (we recommend max. 455 cm), rooms with residual light are also no problem. A smartphone with MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz image mirroring (screen mirroring). Even 1080P video signals and 3D are no problem for the projector. On the market since 2015, the model is no longer offered by the manufacturer Nec.
