

Nec UM352Wi (Multi-Pen)

NEC UM352Wi (MULTI-PEN)

The Nec UM352Wi (Multi-Pen) LCD projector has 3500 ANSI lumens, a contrast ratio of 6000:1, and a WXGA 1280 x 800 resolution. The manufacturer specifies a lamp life of 3800 hours, which would be equivalent to over 5.2 years at 2 hours per day. The projector is equipped with an integrated media player, so playing files directly will not be a problem. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. Since the UM352Wi (Multi-Pen) is equipped with a microphone jack and 20W speaker, no additional audio system is required for presentations or training sessions. An image width of up to 601 cm is possible; if the image width is smaller (we recommend max. 401 cm), even rooms with residual light are no problem. The projector is equipped with an integrated whiteboard function, allowing interactive training sessions and presentations to be carried out. With the HDMI MHL port, the smartphone image can be transferred to the projector in Full HD at 60 Hz using screen mirroring, while the smartphone is charged at the same time. Furthermore, the projector can play 1080P without any problems. The projector was launched in 2015 and is no longer sold by the manufacturer.
