

# NISOO 4K Projector

## NISOO 4K PROJECTOR

The NISOO 4K Projector Game-Portable LED LCD projector has 400 ANSI lumens, a contrast ratio of 10000:1 and an HDTV 1920 x 1080 resolution. The LEDs give the projector a lifespan of 50,000 hours of light, which would be over 34.2 years with 4 hours of viewing per day. It includes an integrated media player that can be used to play files directly. The brightness of 400 ANSI lumens makes it possible to achieve a screen width of 203 cm. In room light, the image should be a maximum of 135 cm wide. The model recognizes DLNA, Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. Furthermore, the projector can play 1080P and 4K (compressed) without any problems, and even has the option of projecting HD 1080P and 4K (compressed) Blu-rays onto the ceiling thanks to the 360° projection.
