Manufacturer Nonete offers the NT30, an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 10000:1. Thanks to the LEDs, the projector has a specified light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The projector also offers an integrated media player that allows files to be played directly. A picture width of up to 144 cm is possible, as the projector has 200 ANSI lumens. However, if there is ambient light in the room, the picture should be no wider than 96 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, Bluetooth connectivity is a useful addition to the projector, especially for wireless audio transmission. The model is also compatible with Full HD 1080P and 4K (compressed). The operating noise of only 25 decibels makes the projection quiet.
