

O.B.E Oray Plus

O.B.E ORAY PLUS

Brief Introduction

Beta 2.5

A brief introduction to the O.B.E Oray Plus. This LCD LED projector has an HDTV resolution of 1920 x 1080 and a contrast ratio of 3000:1. The manufacturer specifies an LED lifespan of 20,000 hours, which, based on four hours? viewing per day, would equate to over 13.7 years. Thanks to the ambient light sensor, the projector can automatically optimise the projected image. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. As O.B.E. specifies the projector?s brightness in lumens, we have calculated an approximate ANSI lumen value in this case. 1,000 ANSI lumens ensure that an image width of 321 cm is possible. However, if there is ambient light in the room, the image should be no more than 214 cm wide. Google TV transforms the projector into a versatile media hub that can be seamlessly integrated into a smart home. The model recognises AirPlay, Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. It is also Full HD 1080p compatible.
