

O.B.E X7D Ultra

O.B.E X7D ULTRA

Brief Introduction

Beta 2.5

With the X7D Ultra, manufacturer O.B.E offers a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1000:1. Thanks to the LEDs, the projector has a lifespan of 20,000 hours, which equates to over 13.7 years at 4 hours? use per day. Thanks to the ambient light sensor (Ambient Light Sensor), the projector can automatically optimise the projected image. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. As O.B.E. specifies the projector?s brightness in lumens, we have calculated an approximate ANSI lumen value in this case. Google TV transforms the projector into a versatile media hub that can be seamlessly integrated into a smart home. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to play videos in high resolution with surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) directly via Wi-Fi in high resolution with surround sound. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Playing 1080p and 4K (compressed) content is also no problem for the projector.
