The Standard Portable ONO 5 Pro 2.0 LED LCD Projector from ONOAYO has 1,458 ANSI lumens, a contrast ratio of 28,000:1 and an HDTV resolution of 1,920 x 1,080. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours? use per day. The built-in media player can play files directly. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. As ONOAYO specifies the projector?s brightness in lumens, we have calculated an approximate ANSI lumen value in this case. An image width of up to 508 cm is possible, as the projector has 1,458 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 339 cm. The model recognises Chromecast, DLNA, AirPlay, Miracast screen mirroring signals, so it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Another bonus worth mentioning is that the projector?s Bluetooth function allows it to be connected to external wireless speakers. The model is also compatible with Full HD 1080p and 4K (compressed).
