A brief introduction to the DH351: The Optoma standard portable 3D DLP projector offers 3600 Ansi lumens, a contrast of 22000:1 and an HDTV 1920 x 1080 resolution. The lamp life is specified by the manufacturer as 10000 hours, which converts to over 13.7 years at 2 hours per day. An image width of up to 610 cm is possible, if the image width is smaller (we recommend max. 407 cm), rooms with residual light are also no problem. The projector can also play 1080P and 3D without any problems. At just 28 decibels, the device is one of the quieter projectors. The model was built by Optoma in 2021 and is no longer current.
