

Optoma DS326

OPTOMA DS326

A brief introduction to the Optoma DS326. The DLP projector has an SVGA 800 x 600 resolution and a contrast of 2500:1. The lamp life is specified by the manufacturer as 5000 hours, which converts to over 6.8 years at 2 hours per day. The projector can illuminate a picture width of up to 444 cm well thanks to the 2600 Ansi lumens. In room light, however, the picture width should ideally be less than 296 cm. Furthermore, the projector can play 1080P without any problems. The operating noise of just 29 decibels makes the projection quiet. The model built in 2011 is no longer offered by Optoma.
