

# Optoma GT750 XL

OPTOMA GT750 XL

A brief introduction to the GT750 XL: The Optoma 3D BrilliantColor DLP projector offers 3500 Ansi lumens, a contrast of 3000:1 and a WXGA 1280 x 800 resolution. Thanks to the brightness of 3500 Ansi lumens, an image width of 601 cm is possible. The projector can also handle slightly brighter rooms with a smaller image width (we recommend max. 401 cm). Video signals 1080P and 3D are also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. On the market since 2012, the model is no longer offered by the manufacturer Optoma, but is still very popular in our projector database.
