

Optoma H76

OPTOMA H76

A brief introduction to the Optoma H76. The home cinema DLP projector has an HDTV 1280 x 720 resolution and a contrast of 2000:1. The horizontal and vertical keystone correction provides room for maneuver when setting up. The projector will be able to illuminate a picture width of 321 cm well. However, if room light is available, the picture width should ideally not exceed 214 cm. With only 28 decibels of operating noise, the model is already very quiet compared to others. This model is no longer offered by Optoma.

Brief Introduction Beta 2.5

Display Type

1 x 0,79" 12° HD2 DLP Chip
