

Optoma H78

OPTOMA H78

The Optoma H78 DLP projector has 1000 Ansi-Lumen, a contrast of 3800:1 and a HDTV 1280 x 720 resolution. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 321 cm is possible as the projector has 1000 Ansi lumens. However, if room light is available, the image should be a maximum of 214 cm wide. The operating noise of only 23 decibels makes the projection quiet. The model built in 2005 is no longer offered by Optoma.
