OPTOMA ML1000P

A brief introduction to the ML1000P: The Optoma 3D LED BrilliantColor DLP projector offers 1000 Ansi lumens, a contrast of 15000:1 and a WXGA 1280 x 800 resolution. The service life of the LEDs is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The integrated media player allows files to be played directly. An image width of up to 321 cm is possible as the projector has 1000 Ansi lumens. However, if room light is available, the image should be a maximum of 214 cm wide. Playing 1080P is also no problem for the projector. The model built in 2013 is no longer offered by Optoma, but is still very popular in our projector database.
