

Optoma CinemaX P1

EAN/UPC:796435 81 338 3

OPTOMA CINEMA X P1

The CinemaX P1 3D laser DLP has 3000 Ansi lumens, a contrast of 2500000:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer specifies a laser service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. Including an integrated media player with which files can be played directly. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. This projector has a projection ratio of just 0.25:1. For a 2 m wide image, the projector only needs to be 50 cm away from the screen. The integrated Google Assistant turns the projector into a voice control center that can be used to search for movies, control your smart home devices and much more. Playback of 1080P and 4K as well as 3D is also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 26 decibels makes the projection quiet. The projector was launched in 2020 and is no longer sold by the manufacturer.
