

Optoma PKA21

OPTOMA PKA21

Brief Introduction

Beta 2.5

The Optoma PKA21 LED DLP projector has 20 Ansi lumens, a contrast of 2000:1 and a WVGA 854 x 480 resolution. Due to the LEDs, the projector is specified with 20000 hours of light life, which is over 13.7 years if enjoyed for four hours a day. Includes an integrated media player with which files can be played directly. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model built in 2010 is no longer offered by Optoma, but is still a very popular projector.
