

Optoma S371

OPTOMA S371

The S371 3D DLP has 3800 Ansi lumens, a contrast of 25000:1 and an SVGA 800 x 600 resolution. The manufacturer Optoma specifies a lamp life of 6000 hours, which is over 8.2 years with a daily viewing time of 2 hours. 3800 Ansi lumens ensure that a picture width of 537 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 358 cm. Video signals 1080P and 3D are also no problem for the projector. At 29 decibels, the projector is very quiet compared to other projectors. On the market since 2020, the model is no longer offered by the manufacturer Optoma.
